DETAILED ACTION

Claim Rejections - 35 USC § 112

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 1, there is no antecedent basis for “the task surface”. In line 2, there is no antecedent basis for “the embodiment”.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Lay (US patent 2,043,758).

The patent to Lay discloses the invention as is claimed (figs. 2,3), including brush bristles provided in tufts (9,10). The bristles of tufts (9) are shorter than those of tufts (10) and are relatively coarse and stiff while the bristles of the longer tufts (10) are relatively fine. The bristles are for simultaneous presentation against a "task" surface. See figure 3.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
